

Loss Control Resources

An Asset to Trucking Professionals With 1-3 Units

Minimizing risk and staying compliant with FMCSA regulations is the responsibility of motor carriers...and it is a big responsibility. At Lancer, we offer **all policyholders—regardless of size—services and resources** that can help reduce losses and enhance regulatory efforts...**at no additional cost!**

Our complimentary services for new policyholders with 1-3 units begin with a phone call from one of our loss control specialists.

Why is Risk Management and Compliance So Important?

Lack of risk management and regulatory non-compliance can put a carrier out of service, lead to higher probability of losses, and result in LARGE monetary fines.

What Can Policyholders Expect from the Call?

While ensuring safe operations and regulatory compliance are the duty of the policyholder, doing so can be challenging. The services and resources provided by Lancer may assist insureds in staying up-to-date on ever-changing regulations, being prepared for a New Entrant Safety Audit, and avoiding compliance pitfalls common to carriers with 1-3 units that may lead to potentially devastating costs associated with non-compliance.

This brief conversation also allows us to provide additional information on:

- The Pre-Employment Screening Program (PSP) and driver hiring practices
- Compliance, Safety, and Accountability (CSA) and Safety Management System (SMS) data
- Any loss prevention and compliance topics the policyholder would like to discuss

Self-Service Loss Prevention Resources

Policyholders also have access to complimentary self-service resources including:

- **Safety Stop** – Our blog for loss prevention information, risk management tips and regulatory updates
- **Business Resource Hub** – An extensive library of materials to help carriers safeguard vehicles and employees, comply with FMCSA regulations and manage their businesses successfully
- **Entry-Level Driver Training (ELDT) Rules** – An invaluable guide that answers questions about the new ELDT regulations
- **SafetyLink Hotline** – Exclusive access to our loss control specialists because loss prevention, driver training and regulatory questions are inevitable
- And much more!
